Application # 10/042,166

Attorney Docket # 2000-0672D (1014-203)

REMARKS

The Examiner is respectfully thanked for the consideration provided to this application. Reconsideration of this application is respectfully requested in light of the foregoing amendments and the following remarks.

The specification has been amended to correct matters of form and one or more typographical errors. It is respectfully submitted that no new matter has been introduced.

The Examiner is also thanked for determining each of claims 1-65 allowable.

Each of claims 1, 9, 15, 26, 41, 49, and 55 has been amended for at least one reason unrelated to patentability, including at least one of: to address an informality, to explicitly present one or more elements implicit in the claim as originally written when viewed in light of the specification, thereby not narrowing the scope of the claim; to detect infringement more easily; to enlarge the scope of infringement; to cover different kinds of infringement (direct, indirect, contributory, induced, and/or importation, etc.); to expedite the issuance of a claim of particular current licensing interest; to target the claim to a party currently interested in licensing certain embodiments; to enlarge the royalty base of the claim; to cover a particular product or person in the marketplace; and/or to target the claim to a particular industry.

Claims 1-65 are now pending in this application. Each of claims 1, 15, 26, 41, and 55 are in independent form.

The Objection to the Specification

In the Office Action, the Specification was objected to because of informalities. The specification was amended solely for purposes of addressing an informality, and thus, not for reasons related to patentability.

Therefore, it is respectfully submitted that any grounds for these objections has been removed, and respectfully request acknowledgment thereof.
